Work Experience

Freelance | Software Development & Design
October 2017 – Current | Green Camp, OH
- Managed clients need and produced deliverables to meet deadlines
- Developed full stack applications with Java, C#, C++
- Designed systems and UI to serve customer needs.

Rosa & Rocco's Italian Kitchen and Steakhouse | Back of House Manager
January 2016 – October 2017 | Marion. Oh
- Meet with customers to discuss menus for special occasions, such as weddings, parties, or banquets.
- Estimate amounts and costs of required supplies, such as food and ingredients.
- Supervise or coordinate activities of cooks or workers engaged in food preparation.
- Recruit and hire staff, such as cooks and other kitchen workers.

Projects

BugTracker | Mobile Java Application
- This application takes bug reports and saves them to a database created with SQLite. This data is then accessible from another page with a list. The data also writes out to a text file that logs the data separately from the database.
- Developed and designed in Android Studio.
